WORLD MARKETS OPEN TO ALBERTA Via VANCOUVER! RIVER BRITISH ALBERTA! COUNTR COLUMBIA EDMONTON CALISARY

### VANCOUVER

There is a world-wide market for the products of Western Canada. Alberta is famed for its production of No. 1 Canadian hard wheat; its dairy products are unsurpassed; its illimitable coal and oil fields have barely been tapped. Before the opening of the Panama Canal and the development of the Western Grain route utilizing Vancouver as your open door to Western Canada, Alberta was literally in the backwoods of North America. Today Alberta stands on the threshold of world markets with Vancouver your open door to the world, within six to seven hundred miles of your thriving centres. On this season's grain movement, estimated at 70,000,000 bushels, the utilization of your port. Vancouver, has saved over \$2,000,000 for Alberta producers—\$2,000,000 additional money turning over in mercantile channels, creating more business—new business—for Alberta businessmen.

would not be the great port that it is today

Alberta is an empire in itself and, like British Columbia, will have to be merchandised to the world to attract people and capital.

Alberta and British Columbia have mutual interests— the development of Edmonton and Calpary means the development of your scaport, Vancouver.
